

# Doghouses

## Clever use of space – made easy

Even the smallest space in a plane can be put to good use. Our specially designed doghouses meet all demands of intelligent space utilization – thanks to an adaptable modularity and the focus on lightweight solutions. We design our doghouses for various locations in the cabin in different standard widths or customized to your needs. Furthermore, we develop and manufacture our products for all kinds of aircraft types.

To guarantee the lightness of our products – without losing stability and robustness – we produce our doghouses only with highest-quality materials.

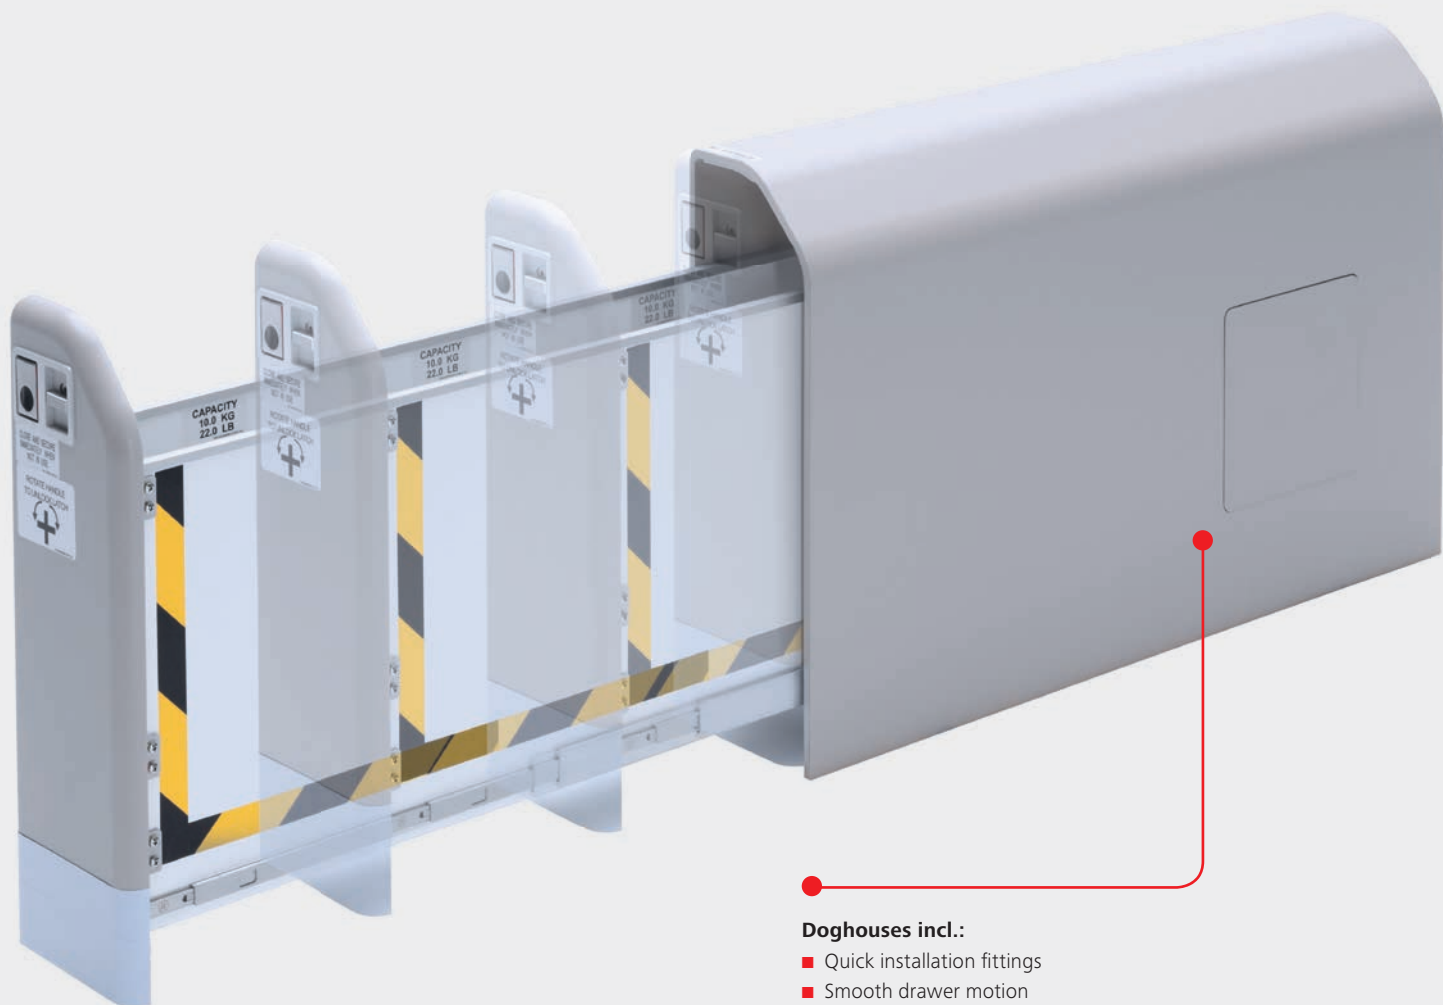

### **Our doghouses meet all demands for your aircraft:**

- Standard sizes from 6" to 8"
- High-quality lightweight materials
- Easy and fast installation and removal without special tools
- Various possibilities for customizable design

Our doghouses are already used successfully for many years by various renowned airlines all around the globe. Long-term experience in designing, developing and production guarantee another successful and reliable product from Bucher. Contact us for more information, our Sales team is glad to assist you at any time.

Small space – more possibilities

**Doghouses incl.:**
