

## SkyBassinet

### Compact Comfort for Little Flyers

At Bucher, we understand the importance of space-saving and passenger comfort, which is why we have designed the SkyBassinet with both in mind. We pride ourselves on our commitment to excellence and our passion for innovation. That is why we have invested in the latest technology and engineering techniques to create a baby bassinet that is not only functional and reliable, but also stylish and comfortable. Upgrade your airline's baby bassinet experience today with the latest and greatest from Bucher. Contact us today to learn more about our innovative solutions and products.

#### Our key features:

- Patented folding mechanism for easy and space-saving storage and transportation
- Lightweight construction for easy handling by flight attendants
- Maximum sleeping comfort for babies due to optimal air permeability
- Integrated thermoregulation
- Safety straps to keep baby secure during flight
- Easy installation on existing provisions
- Compliant with aviation safety standards for baby products
- Durable and long-lasting materials for repeated use
- Simple cleaning and maintenance with removable and washable fabrics

#### Solution

The SkyBassinet offers maximum sleeping comfort for your littlest passengers and is the perfect choice for parents looking for a safe and comfortable place for their baby to rest during the flight. Flight attendants will appreciate its lightweight construction, making it easy to handle, transport and store.

## Functional principle

Our team of expert engineers has developed a state-of-the-art fastening system and comfortable basket design to ensure the little ones have a safe and secure place to rest during their flight. Due to an optimal air permeability and integrated thermo-regulation, we can ensure maximum sleeping comfort, so that babies always are comfortably and cozy. This is the perfect solution for airlines seeking space-saving options and flexibility without compromising on passenger comfort. With its patented folding mechanism, the SkyBassinet can easily be reduced to the size of a small handbag, resulting in more than 50% space savings for your crew and aircraft storage. The SkyBassinet meets all industry standards and regulations, so passengers can have peace of mind, knowing that their little ones are in good hands.

### Weight

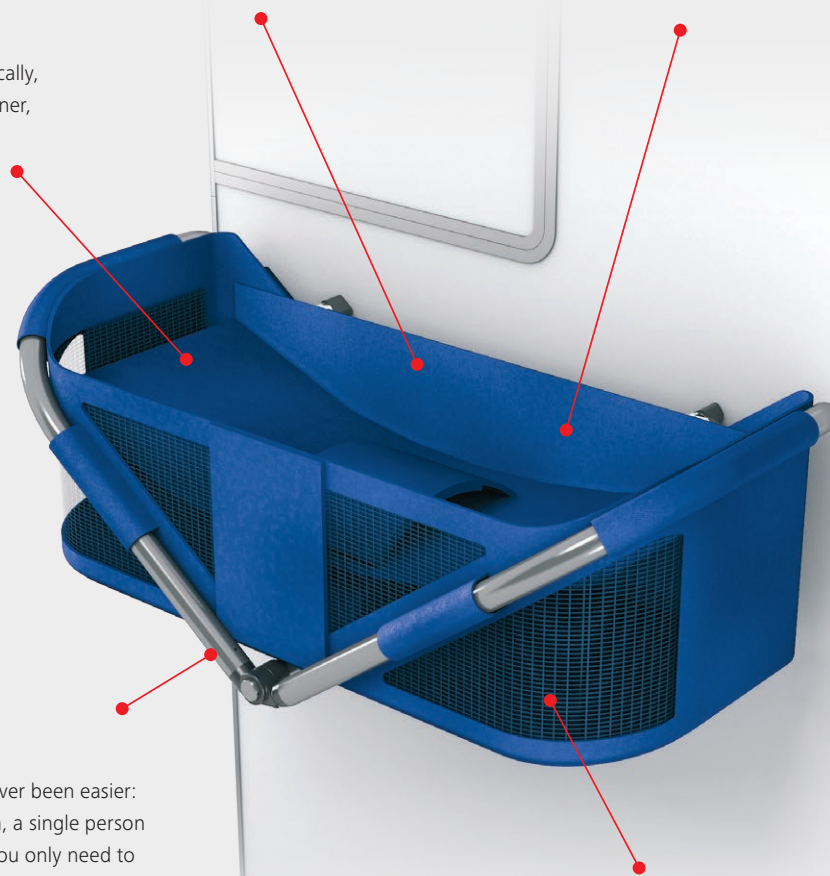

The high strength to weight ratio of aluminum and the patented structure, allow the SkyBassinet a weight of only 2.4 kg.

### Style

The unique shape of the frame, modern basket and custom colors, make the SkyBassinet look stylish

### Volume

As the SkyBassinet can be folded vertically, it can be stored in a space-saving manner, reducing the storage volume by 50%.

### Handling

Assembling a SkyBassinet has never been easier: thanks to our folding mechanism, a single person can do it easily. As for storage, you only need to unfold or fold the bassinet in the middle.

### Hygiene

The cover is completely removable and washable. Therefore, you can offer passengers maximum hygiene.
